Curette, Oval  
12.75mm 07.01217.001

Rake Curette, Straight  
12.75mm 07.01218.001

## Mergence™ Anterior Preparation Instrumentation

The *Mergence* Anterior Preparation Instrumentation was designed by spine surgeons to provide a complete set of tools for access, discectomy and endplate preparation from an anterior approach. It complements the Zimmer Spine implant-specific instrument sets to provide the total solution for anterior spinal surgery.

- The comprehensive instrument set provides multiple options to accommodate varying anatomy and surgeon preference.
- The handles are contoured for a two-handed grip and have a comfortable and durable silicone surface for enhanced ergonomics.
- The instrument shafts have an anti-glare coating for improved visualization.
- The versatile *Mergence* Lumbar Distractor is available for anterior, anterior/lateral and lateral procedures.

### Other Products Available from Zimmer Spine

- *Puros*®-A Anterior Allograft
- TM-400 VBR Device
- *Trinica*® Anterior Lumbar Plate System
- *Mergence* Lumbar Distractor
